It's almost too hot to breath, 115 degrees in Santee, I have had enough. I am sure you have too so our next meeting will be at De Anza Cove and hopefully it will be a bit cooler.

Our Drive in movie night was a huge success we had 16 cars and over 30 members their children and even a few pets, a great family outing.

We even got a few new members to show up. Sheri brought her Famous chocolate cake and I hope everyone enjoyed cause baking it raise the temperature in the house by 5 degrees to a cozy 93. .

It's too hot to even do this news Letter so if there are typo's fix them for me.

Thanks  
Lenny

Contact me if your interested. We need 150 people at about \$30.00 a head to pull it off so I have also invited Group Z and Inland Valley to join us might even be able to get the cars on the flight deck but you would have to behave, if you even think that you'd want to act out with your Z don't bother coming. The Porsche club is not allowed to come back because of people acting out. So we would never do such things.

## **ZCSD's Night at the Santee drive-in.**

Every year we do the drive-in movie some years the turnouts are good some not so good. Well this year was quite possibly the largest turnout yet, 16 cars more than 35 members and their families.

Now not all drove Z cars, but this is what I always say that it's the people not the cars that make this club.

Les and Antonella drove down from Victorville and drove back that nite after the second movie, That's dedication.

Or maybe it was the twin bill of "Pirates of the Caribbean" and "Cars" or Sheri's Death by Chocolate cake.

All I know is we were showing up the Chevy club directly behind us.

I would like to thank all that made it,,, we also didn't need any blankets that night either. What did work well was Deborah's squirt bottle filled with ice water.

I also want to welcome the new members, Johnny Bond, Len Martini and JT. ....

## Yeah I known this is not “Z” related but I think it is interesting

In May, the U.S. Mint informed Congress that the cost of making a penny and a nickel will soon exceed the actual value of each coin. Thanks to the high cost of materials that go into the making of the coins -- zinc, copper and nickel -- the Mint estimates that by the end of the fiscal year, the cost of producing one penny will come to around 1.23 cents, and the cost of making a nickel will be 5.73 cents.

The news revived efforts to take the penny out of circulation. Rep. Jim Kolbe, R- Ariz., has begun drafting a bill to modernize America's currency system. According to Kolbe's press secretary, Korenna Cline, the bill would most likely include a slow phasing out of the penny, create a reasonable rounding system, increase the production and circulation of the \$2 bill as well as the Sacajawea (often called the golden) dollar, and possibly change the composition of coins to include less-expensive metals.

In 2001, a similar bill that called for the abolishment of the penny, also drafted by Kolbe, never made it out of committee. (Do you think it's time to kill the penny? Vote here)

## Honestly, Abe

The penny does have its supporters. Mark Weller is executive director of Americans for Common Cents, a nonprofit organization that was founded in the '90s when similar moves to abolish the penny were launched. His organization's goal is to keep Congress and the public updated on news and information about the penny. Weller says that polls conducted by ABCNews, USA Today/Gallup and Coinstar all show that the majority of Americans want to keep the penny around.

### JUST A NOTE to the masses:::.....

It was too hot to go any further, at the time of this newsletter 's inception, it didn't fall below 85 degrees in my office... Though by this time next month I expect that the central A/C will be fully installed and functioning. Probably won't need it then .
